## OLD LANDMARK GONE

RIDGEWAY LUMBER YARD WAS EYESORE ON THIRD AND FOURTH.

## WAS BUILT 40 YEARS AGO

**W. R. Smiley Succeeded S. L. Ridgeway and Was Followed by Parcher and McNeal.**

A landmark for forty years in Maryville and an eyesore for the last several years of that time, the old Ridgeway lumber yards will soon be no more. The sheds and office building are being rapidly razed this week and by Saturday little but the lots will be left.

The real estate was sold by Mr. and Mrs. W. R. Smiley ti Joseph Jackson, Jr. The price was $8,000 and the former owners have the right to the removal of all fences and buildings upon the lots in Third and Fourth streets between Buchanan and Fillmore streets

If West Third and Fourth streets have any personality, they are surely "perking up" this week as the ugly spot is being removed. The Christian church also will be helped greatly in appearance. And if sordid commercial affairs may be permitted to interject themselves into the atmosphere of esthetic pride at the improvement, insurance rates will be lowered on buildings in that neighborhood.

S. L. Ridgeway opened a lumberyard on that site forty years ago. For fifteen years he ran the business, selling it in 1890 to his son-in-law, W. R. Smiley. It was open most of the early years with only an office. The sheds have been standing about thirty years now.

Mr. Smiley sold the business in 1905 to Parcher and McNeal who conducted the business for four years after which it ceased to be an independent yard. The sheds were used for storage by both of the other yards until a year ago when the lease expired.

Since that time the property has been used for a feed lot which did not add in any way to its desirability as a neighborhood attraction.

**Many Buy Old Lumber.**

A goodly number of buyers were on hand to get the old material in the sheds. M. D. Vert bought the shed on the northeast side on Fourth street. He is hauling the timbers to his farm where he is building a cattle shed. A. S. Robey, who lives nearby, is laying in a large supply of shingles for kindling. The average price for the sheds was about $70.

J. B. Robinson bought one of the sheds and will use all of the material for kindling. F. A. Woodard bought another and is putting the material in a new house which he is building on East Fourth street across the street from the colored church.

L. R. Holt, Paul Saxton, and A. R. Hunt of Ravenwood, also are tearing down a shed each. Earl Gage will raze the office building. It is rumored that apartment houses may be built upon the lots.

The police and other authorities are also glad that the "torn spot" on the city's clothing is being patched, for the place has been a nuisance for a number of years. Brick bats have been thrown from the dark at police officers and others. Immoral and unlawful practices have been followed there. To stir up ancient humor, it was a paradise for those with a pair of dice.

Mr. Jackson says that he is not able at this time to announce what will be done with the property. It is rumored that apartment houses are to be built but no confirmation of this could be had. Why worry about that anyway? The big thing for Maryville residents right now is that what has been there is a thing of the past.

The lots on the corner of Third and Fillmore where a tennis court is were included in the sale. Altogether the land makes 12 business lots of 22 foot frontage.

**Visiting at Omaha.**

## FUNDERBURG TO PEN

PLEADS GUILTY TO CARNAL KNOWLEDGE; WAS GIVEN 3 YEARS.

## DESPOILED A YOUNG GIRL

**Epperson Case Continued to Next Term —Hansen's Suit Upon Thornhill for Damages Today.**

John Funderburg pleaded guilty of carnal knowledge in circuit court yesterday and was sentenced to three years in the state penitentiary by Judge W. C. Ellison. The term was first placed at four years but pleas by Cook and Dawson, attorneys for the defendant, persuaded the judge to take off a year.

The statement to the court by Prosecuting Attorney W. G .Sawyers was that Funderberg is 33 years old, married but his wife is dead and one child is living with his grandfather at Amazonia. Funderberg was working near Barnard at the time of the Nodaway county fair.

Coming to the Fair, he fell in with a daughter of J. L. Stafford of near Burlington Junction. The girl was only 15 years old; she had been the "little mother" of the other children for several years since her mother died and had been away from home but little. Coming to the Fair with her brother, she became separated during the afternoon. While she was looking for her relatives Funderburg met her.

After treating her to several "cones and soda pop," he proposed that they take a buggy ride. She consented and they drove out the northwest road. They remained out in the buggy all night until 5 o'clock the next morning except for a short time when they came in to get something to eat about supper time.

The father of the girl lodged a complaint with the prosecuting attorney as soon as his daughter was found and as a result the "despoiler" will have three long years to think the matter over at Jefferson City.

The case of John F. Hansen vs. John Thornhill for $20,000 damages, was on trial in court today before a jury composed of H. H. McClurg, J. D. Elliott, W. A. Mozingo, Jake Moore, Martin Pederson, Ray Dowling, Eli McAtee, Fred Wray, A. C. Dredge, Charles Gray, W. V. Smith and Lester Ellis.

Hansen alleges that Thornhill made an assault on him March 31, 1915, by striking him, in the Knox garage. Hansen claims to have sustained a broken collar bone, his face, head and eyes injured, his chest and ribs were injured and that some of the injuries he received will be permanent.

Fred P. Robinson of this city, and B. R. Martin of St. Joseph, are representing Hansen, while Cook, Cummins & Dawson and Shinabargar, Blagg & Ellison are representing Thornhill.

There are many witnesses in the case and it will probably not go to the jury before tomorrow.

Everett A. Bagley, a young man, was sentenced to two years in the penitentiary by Judge Ellison when he pleaded guilty to the charge of forgery. He was paroled by the court under a $500 bond, which was given with his father, D. D. Bagley as surety. This was the young man's first offense and many prominent citizens pleaded for his parole as did the parties that received the bogus checks, which were paid by the boy's father.

In the case of State vs. Harry Epperson, on application of defendant for a continuance, it was continued until next term at defendant's cost.

The jury in the case of Cail Stark, charged with operating a car while intoxicated, brought in a verdict for the defendant.

Joseph Downing plead guilty to a charge of disturbing the peace and was fined $5 and costs.

**TO SHOW "THE MOONSTONE."**

**Famous Drama to be Presented at the Empire Tomorrow Night.**

"The Moonstone," a five-reel feature picture, based on the Wilkie Coolins novel and play of the same name will be shown at the Empire theatre tomorrow night.

The film will star Eugene O'Brien and Elaine Hammerstein. The story is a new world romance interwoven with a counter story of a Hindoo mysticism and one of the most fascinating pictures produced.

**To Visit Home Folks.**

Mrs. Ike Thomas Pryor of Fort Stockton, Texas, will arrive in Maryville tonight for a visit with her parents, Judge and Mrs. W. C. Ellison.

## CALL US FOR THE SCORE

**Tomorrow's the Day and The Democrat-Forum Will Have World's Series Results by Innings.**

Rejoice, ye fans, tomorrow's the day. The "Phighting Phlying Phils" will meet the "Rantancerous" Red Sox in anither clinch for the honors of being considered world's champions (unless the "considerer happens to be a Fed fan).

The Democrat-Forum will be on the job. Call 42 on the Hanamo phone or 114 on the Farmers anytime after 2 o'clock and we'll be able to give you the score up to that time by innings. And the Democrat-Forum will have the final score every day, thanks to eastern time which will have the big games over before our time of going to press.

The Sweitzer Smoke Shop will receive the game by innings and bulletin in its north window. Although the games will not be received play by play, important features such as a home-run will be flashed."

It just makes one's athletic mouth water, doesn't it?

**SHIP NINE CARS OF APPLES.**

## WILSON BETROTHED

PRESIDENT TO MARRY MRS. GALT OF WASHINGTON IN DECEMBER

## SOCIETY MUCH SURPRISED

**No Hint Had Been Given And No Rumors eHard.—To Throw First World's Series Ball.**

Special to The Democrat-Forum.

Washington, Oct. 7.—Woodrow Wilsin the president of the United States, announced last night his engagement to Mrs. Norman R. Galt of Washington. The date of the wedding has not been fixed, but it probably will take place in December at the home of the bride-elect.

Washington society was never more surprised or bewildered. No hint had been given by any special attention to Mrs. Galt on the part of the President and no social rumors went about previous to the announcement.

President Wilson was swamped with congratulations today. He anniunced concerning the wedding that he desired a quiet marriage but would defer to Mrs. Galt's wishes in the matter.

A party including Mrs. Galt and the President will go tot New York today to be the guests of Colonel House. They will return to Philadelphia tomorrow where President Wilson will throw the first ball, opening the World's Series baseball games.

**Quiet Wedding at Bride's Home.**

It became known near noon today that the wedding would take place early in December. Mrs. Galt is very democratic in her tastes and the marriage will be a quiet affair at the bride's home with only the most intimate friends and relatives present.

Mrs. Galt, who is of course the most talked of person in Washington today was beseiged with congratulatory callers today. Hundreds of messages came too. She denied herself to everyone except intimate friends.

Her only public statement was: "I am very happy. Everything else necessary has been said at the White House."

Mrs. Galt is a direct descendent of Pocahantas and Captain John Smith She is a native Virginian and the widow of one of the largest business firms in this city, who died eight years ago. The jewelry firm still bears his name.

**Known Her Less Than a Year.**

President Wilson has known Mrs. Galt less than a year. She was brought inti the White House circle by Miss Margaret Wilson and Miss Helen Woodrow Bones, her cousin. Dr. Cary Grayson, the President's medical advisor and most intimate friend, and Miss Bones are credited with bringing about the match.

Mrs. Galt is 38 years old. She is regarded as being gifted with unusual beauty and charm. She has been constantly sought after in social Washington as a delightful companion. She was a frequent dinner guest at the White House and was the guest of Miss Wilson at the summer home of the President at Cornish, N. H. for several weeks last summer.

**Will Lighten Lonely Strain.**

Much pleasure was expressed in all quarters today because it has been known that the President was very lonely since the death of his former wife and the marriage of his two daughters. The strain of the Nation's affairs was not lightened by enough social diversions

Social life is expected to break out at once in a large number of receptions at which the future first lady of the land will be at the head of the receiving line. Mrs. Galt has appeared frequently in public with the President during last summer. She has played golf with him many times also.

Last week she occupied a seat next him in the reviewing stand of the G. A. R. parade. She was at dinner with President Wilson and Dr. Grayson and Miss Bones while Secretary Tumulty was making the brief announcement from the executive offices last night.

## EYES ON BALKANS

NEW CABINET FORMED IN GREECE FAVORING NEUTRALITY.

## MINISTERS LEAVE SOFIA

**Diplomatic Break With Bulgaria Will Mean War.—Kaiser Hopes to Reach Turkey.**

Special to the Democrat-Forum.

Athens, Oct. 7.—A coalition cabinet was announced by King Constantine here today with Alexander Zaimis, governor of the National Bank of Greece, as premier and foreign minister. All the members of the new cabinet are former ministers and M. Zaimis was a premier in a previous government. The change of government is considered a victory for Germany, but Greece will remain neutral, it is believed.

The Allies continue war preparations on Greek soil. Additional troops were landed today at Soloniki from Great Britain.

**Italy Breaks With Bulgaria.**

Special to The Democrat-Forum.

Rome, Oct. 7.—The severing of diplomatic relations with Bulgaria was announced by the Italian government today and a call was made for additional troops to join the Allies landing in Greece in their aid to Servia.

**Servia Rejects Bulgaria's Demands.**

Special to The Democrat-Forum.

London, Oct. 7.—Servia has rejected the demands of Bulgaria for the surrender of Macedonia and hostilities are expected between the two countries within twenty-four hours.

**All Allies Out of Sofia.**

Special to The Democrat-Forum.

Sofia, Oct. 7.—The British, French, Russian and Servian ambassadors have asked for their passports from the Bulgarian government, the ultimatum to Russia being unsatisfactory. The center of interest in the war is now on the Balkans.

It is believed that the German government hopes to form a connection from the Central Powers of Turkey. With Bulgaria fighting with them and the neutrality of Greece and Roumania assured, all that would remain to be done would be the crushing of Servia.

The Kaiser's dream of expansion toward Asia seems possible of fulfillment unless the Allies can land a greater force in the Balkans than seems probable now. The aid of Greece to Servia had been counted on but King Constantine of Greece has announced himself unalterably opposed to helping Servia although she is bound to do so by a treaty.

**MAIL CARRIER'S HOME BURNED.**

**Fire Costs Ed. Kerr of Graham Several Thousand Dollars.**

The residence of Ed. Kerr of Graham, was burned last night about midnight. The entire contents of the house, including a new piano was also destgoyed. The house was a six-room frame, modern, and almost new. Most of the furniture was also new and the loss is several thousand dollars. Mr. Kerr is a rural mail carrier.

**Old Nash House Re-Roofed.**

The house on the corner of Buchanan and Second streets, known as theNash property, is being re-roofed this week and other repairs are being made. The house is occupied by Mrs. Ella Shipps.

**Returns to Manhattan.**

Mrs. H. O. Porter of Manhattan, Kan who had been visiting her parents, Mr. and Mrs. H. C. Smith, left this morning for her home.

Another influence of Billy Sunday in the land is that every revival niw has to be in a "tabernacle." Churches for protracted meetings seem to have gone out of style.

The Balkan nations have never amounted to much until now but they have at last come into their own. They have good prospects of becoming the center of activities in the European conflagration.

A committee went from St. Joseph to Omaha to tell Billy Sunday that St. Joseph is in "dire need of an awakening." The News-Press says "this is a strong indictment but unfortunately, it is substantially true." If St. Joe has at last found out that she needs an awakening, Billy Sunday's work is half done.

Under a decision recently rendered by the Supreme Court of the United States school authorities are given the right to regulate or prohibit the fraternities of the schools. In many schools the fraternity proposition has long been a serious source of vexation and a menace to the best interests of the schools but it has been difficult to regulate.

## A WOMAN'S CLUB HOUSE.

The ladies of Maryville should have a club house. The fact that they have no place this side of the Normal building in which to properly take care of an important meeting of club ladies is in itself a convincing proof of their need. Dreams of such a building have been indulged for some years by some of the local club members but it has never gotten beyond a dream.

The growing activity of our club ladies in the direction of the public welfare and civic improvement generally brings the matter down to a practical consideration and gives new life and importance to it.

That such a building is desirable and would be a credit to Maryville we presume will be conceded without argument. But how may such an achievement be realized? Real estate and handsome buildings cost money. Savings from the usual entertainments and little enterprises would not yield a sufficient amount short of a life time.

If the ladies who are able to successfully conclude other undertakings get their heads together earnestly, there is little doubt that they and their friends may find the way. The Democrat-Forum does not now see how it can be brought about unless in one of two ways. If there is any one of means philanthropically inclined, a donation or endowment might be secured which would make such an undertaking feasible. There are a number of vacant lots and unprofitable properties which might well be turned to some such good purpose.

An entirely practical way, and perhaps the surest way, would be the formation of a joint stock company in which the ladies would take and hold all the stock. The sale of two hundred fifty dollar shares would realize ten thousand dollars. Public spirit and pride would prompt some one to supply the desirable lot at a low price and with this as a basis, a handsome and wholly adequate structure should result. The enterprise might produce in returns more than its up-keep and it might not but those who took the stock would not expect it to be a revenue producing investment. It would bring in ither ways most valuable returns.

**Forsyth's**

In all things, it has proven, times without number, that ability and ambition combined with conscientious scruples will win. So it is with M. L. Grable, contract painter and paperhanger.

We have started business on a small scale and high principles and are building up a large business on merited confidence, thereby securing some of the largest contracts which have been let this year.

It has always been my aim to have owners satisfied, thereby gaining their friendship and the confidence of others as borne out by the testimony if the many satisfied owners for whom we have wirked.

I do my contracting independent of any paint firm or building contractor and am therefore the better prepared to give my customers the best of materials and workmanship. My workmen are the best and we use only the highest grade materials on the market.

Now is the best time of the year for painting—no dust, no flies—"clean up, paint up" should be the slogan of the fall months. Make the home attractive during the winter. Estimates cheerfully given.

## NOTES OF THE SHEEP FLOCK

**Animals Fit Nicely Into Modern Farming—Early Maturity Is Important Point to Consider.**

As the country ages and the fertility of its fields becomes exhausted its appreciation of the sheep will increase.

Early maturity is an important quality to consider in selecting sheep.

Whether you are keeping sheep for pleasure or profit, your desires will be fully met if your flock is of superior quality.

A strong sheep does not absolutel, need to be a large one, in fact a majority of the strongest sheep are medium sized.

Sheep do not interfere with, but fit nicely into modern farming.

Sell the aged ewes to a butcher before the pastures dry up.

Sell the fat lambs as soon as they are fit, and give those left a better chance.

One or two gentle ewes should be left with the lambs to keep them gentle.

Sheep that are in any way diseased should never be retained for breeding stock, no matter how good a fleece or lamb they may produce.

Good lambs are money makers.

**Improve!**

Just now the agricultural press and country publications too for that matter, are calling everybody's attention to the importance of pure and improved seeds. Poultry raisers, why not take the hint and pay special attention to improving your flock of fowls. This is equally as important as seed grain, if not more so, for there is a mighty difference between the dunghill kind kept by too many and the graded-up kind kept by too few

The KITCHEN CUPBOARD

BREAKFAST GEMS.

WHOLE Wheat Gems.—Materials: Three cupfuls whole wheat flour, two rounded teaspoonfuls baking powder, one and one-half cupfuls milk, two eggs, one tablespoonful sugar, two tablespoonfuls melted butter or other shortening.

How to Make.—Sift flour, baking powder, salt and sugar into bowl; add milk slowly; then add the well beaten egg and butter; mix well. Brush gem pans or muffin tins with lard; put a spoonful of mixture in each; bake in hot oven ten to twelve minutes.

Graham Gems.—Take about one pint of fairly thick sour milk, one rounding teaspoonful of saleratus, one teaspoonful of salt, two tablespoonfuls of molasses and graham flour to make a stiff batter. Have gem pans smoking hot and buttered when you drop in the batter. Bake about twenty minutes in a good hot oven.

Cornmeal Muffins.—Half a cupful cornmeal, one cupful flour, three tablespoonful baking powder, two tablespoonfuls sugar, one tablespoonful melted butter, one teaspoonful salt, three-fourths cupful milk, one egg. Mix all together and bake in hot oven.

Popovers.—Two eggs, one cupful of milk, one-half tablespoonful of butter cut into the flour, one-half teaspoonful of salt, one teaspoonful of baking powder and one cupful of flour. Mix the dry ingredients and add the milk and eggs. Bake half an hour in a moderate oven.

Griddlecakes.—One and one-half cupfuls of rich sour milk, one-half teaspoonful of salt, one teaspoonful of soda dissolved in one teaspoonful of cold water and one and one-half cupfuls of flour. Beat until smooth and fry on a hot, well greased griddle. This rule will make four cakes fully as large as a tea plate. Pile on a hot plate with plenty of butter and sugar.

Graham Griddlecakes.—One cupful of graham flour, one-half cupful of white flour, one tablespoonful of sugar, two teaspoonfuls of baking powder, two eggs, one and one-quarter cupfuls of milk, one teaspoonful of salt. Scald the milk and pour on to the graham flour. When cold add the remaining ingredients. Beat well and cook as regular griddle cakes.

## ACIDS IN STOMACH SOUR THE FOOD AND CAUSE INDIGESTION.

**"Pape's Diapepsin" Fixes Sour, Gassy, Upset Stomachs in Five Minutes.**

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can surely get relief in five minutes.

Ask your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for billiusness or constipation.

This city will have many "Pape's Diapepsin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia, or any stomach misery.

Get some now, this minute, and rid yourself of stomach misery and indigestion in five minutes. 10-7-15.

## PLANTING THE WALNUT TREE

**Prepare Soil Carefully and Plant Nuts Three Feet Apart in Furrows—Carefully Conserve Moisture.**

Black walnut seeds are to be gathered in the fall, and the nuts carefully stratified. The nuts are not to be hulled even when the seed is planted, as the hull interferes in no way with the germination, and it may prevent the nut from drying out.

Gather the nuts, and alternate a layer of them with a layer of sand and leaves. Moisten the pile, and allow it to freeze. Let it remain moist and frozen all of the winter.

Plant the seed next spring as soon as the ground is in a workable condition. Black walnut trees will not make a good growth unless the ground is rich, and they ought not to be planted on any other kind. Prepare the land carefully and plant the nuts three feet apart in furrows ten feet apart. Plant the nuts four inches deep. As the black walnut is very sensitive to dry, parched conditions, it is necessary to give the trees good cultivation, and carefully conserve the moisture.

**Time to Market Sheep.**

The most advantageous time to sell a sheep is when it is a lamb. If the lamb weighs 80 pounds, is fat and has the quality, it will sell as a prime lamb the year around; if it weighs 84 to 85 pounds on the farm it will weigh about 80 pounds on the market.

## RENOVATING AN OLD ORCHARD

**Ground Should Be Broken Between Trees and Sown to Some Quick-Growing Crop.**

Where there is a mat of grass and weeds in an old orchard the ground should be broken between the trees, taking care not to approach too closely to the trunks for fear of injuring the tangle of roots that usually run near the surface. For the first year after the orchard's renovation the strips that are plowed should be sown in cowpeas or some other quick-growing crop.

The aeration of the soil is the principal thing that is sought through this cultivation. It should be kept up for a couple of years, and where it

Properly Cared For Michigan Apple Orchard.

is possible to do so the ground should be broken sufficiently to seed a cover crop.

Of course, all dead and diseased wood should be taken out. It will interfere with spraying and picking, as well as offering a harboring place for all manner of insects and tree enemies. During the work of renovation all hanging bark, clinging loosely to the trees, should be pulled away and burned.

The weeds and trash that have gathered around the trunks of trees should be pulled away and burned with trash, dead limbs and other debris. All these things shelter hibernating orchard enemies, and by burning them the bugs and lice are destroyed.

## ONE OBJECT IN CULTIVATION

**It Best Conserves Moisture and Liberates Plant Food, Conditions Making Good Growth.**

The main object in the cultivation of a young orchard is to secure the fastest, thriftiest possible growth of the trees without unduly endangering them from disease attacks, or from winter killing occasioned by going into the winter in an immature condition. Continuous cultivation throughout the growing season best conserves moisture and liberates plant food. These conditions make for a splendid growth in young trees. A good supply of humus should be kept in the soil of a young orchard at all times, by dressing with stable manure or growing and working in green manure crops.

The best tool for working a young orchard is an extension reversible disk, of the ordinary or the cutaway type. This allows working up close to and under low-headed trees, without injury to their trunks. A spring tooth harrow may take the place of the disk, but cannot be gotten so close to the trees without injury to them.

Harrow as free as possible from projecting parts, and short singletrees should always be used in orchard culture.

## SPARE INSECT-EATING BIRDS

**Drastic Measures Must Be Taken to Save Quail, Grouse and Pheasants From Complete Annihilation.**

"The time has come when every sportsman should put away his gun for five years at least," said Col. G. O. Shields during a recent lecture upon "Birds and Animals of America."

Colonel Shields argued that drastic measures must be put into effect if quail, grouse, pheasants, and prairie chickens are to be saved from extinction. The annihilation of these birds, he said, would mean untold poverty resulting from the scarcity of crops which would be eaten by insects.

"Ninety per cent of the normal bird life of this country already has been destroyed and the other 10 per cent will go in the next five years unless strong measures are employed to stop the slaughter," he said. "Careful scientists tell us that if all the insect-eating birds were destroyed the whole continent would, within three years, become uninhabitable by reason of the myriads of insects that would spring up and devour every living thing."

# VOTE BENEFIT TO WOMAN AND STATE

## Prominent Washington Citizens Tell of Uplift.

## BETTER POLLING PLACES.

**National Democratic Committeeman John Pattison Asserts Women Improved Them in Tone and Character. Another Declares Voting Is Human Right—Has Helped Washington.**

Washington.—One of the best ways to find out how equal suffrage works is to listen to what the people in the equal suffrage states have to say about woman suffrage. The testimony of Mr. John Pattison, national Democratic committeeman of Washington, carries weight not only on account of Mr. Pattison's position, but because it is founded on facts and not on theories. When Mr. Pattison was interviewed he confessed frankly that at first he was opposed to woman suffrage on sentimental grounds. He had been taught to put woman on a pedestal, and he didn't just see how he was going to keep her on a pedestal if she persisted in going to the polls. He now acknowledges that to have been a false alarm and says that if a return to the old order of things were put to the voters today 90 per cent of the male voters would vote for woman suffrage. In a long and intimate connection with politics he has seen the convention halls and polls, "which formerly were too often the scene of drunkenness and violence, improve in tone and character by the presence of the women delegates and voters."

Women, he finds, have shown an active and helpful interest in civics and school matters. In municipal affairs they are keen, earnest workers, but national politics they are inclined to leave to the men.

When Mr. Pattison was reminded that opponents of woman suffrage in the east held that equal suffrage had proved harmful to the western states, he negatived the idea emphatically. "It has been the best thing that has ever happened to us," said Mr. Pattison. "Our women of the west are the best mothers in the world, the best wives in the world, the sweetest sweethearts in the world."

"Why shouldn't they be?" was the way Mr. Charles Lund, former chairman of the state Republican committee, answered the question, "Should women vote?" "They are just as capable of voting as the average man; they have the same brains, the same interests, the same feelings and prejudices. Suffrage has been a good thing for Washington, and it has been a good thing for the women. There have been no radical changes, but there has been a perceptible improvement in the tone of politics."

Mr. Arthur Lee, president of the school board of Spokane, had this to say on woman suffrage: "If the women of Washington want the responsibility of the ballot the men of Washington want them to have it. Equal suffrage is still a comparatively recent innovation in Washington, and it is hardly fair to judge women's capacity for government in the few years that they have had an opportunity to voice their opinions. But it certainly has not worked any harm to the government and in instances has been of real benefit."

Mr. Charles S. Albert, attorney for the Great Northern railroad, in indorsing woman suffrage says: "Some people seem to have an idea that voting is a ceremony that people perform laboriously, with much expenditure of time and energy. All we do in Washington is to go first to the primaries, the woman with her shopping bag or sometimes with her market basket, and the man with his newspaper, and when we get to the primaries if we don't know anything about the candidates we inquire from some one who does know, the women asking questions just as the men do. Then he trots off to his office and she to her shopping or to her home, and we don't consume any more of our time with politics until election day. Then we go cast our votes. It really is very easy—not exactly an arduous and nerve racking performance to ruin a woman's character or break down her health. We believe in equal suffrage in Washington just as we believe in wives and homes and children."

**Empress Had Unique Rules.**

In the "Hermitage of Catharine" connected with the Winter Palace of the czars of Russia, hangs a tablet on which is graven ten guest rules of the great Empress Catharine of Russia. These might be hard for the guest of today to comply with but the most of them could be followed sometimes to the advantage of the hostess. Anyway they are interesting and indicative of the character of this great queen. They follow:

"1. Leave your rank outside, as well as your hat and especially your sword.

"2. Leave your right of precedence, your pride and any similar feeling outside the door.

"3. Be gay, but do not spoil a good thing; do not break or gnaw anything.

"4. Sit, stand, walk as you will without reference to anybody.

"5. Talk moderately and not very loud, so as not to make the ears and heads of others ache.

"6. Argue without anger and excitement.

"7. Neither sigh nor yawn, nor make anybody dull or heavy.

"8. In all innocent games, whatever one proposes, let all join.

"9. Eat whatever is sweet and savory, but drink with moderation, so that each may find his legs on leaving the room.

"10. Tell no tales out of school; whatever goes in at one ear must go out at the other before leaving the room."

# JOHN D., JR., WINS ENEMIES' HEARTS

## Genial and Unassuming Manner Charms Colorado.

## NOW MINERS' FAVORITE.

**Dances With Workers' Wives, Pinches Cheeks of Children, Wields Pick In Mine and Eats Laborers' Chuck on Visit to Colorado—Learns Living Conditions.**

Pueblo, Colo.—Colorado public opinion is fickle. John D. Rockefeller, Jr., whose name was hated in every section of the state, is the most popular individual in the commonwealth today, if the Colorado newspapers accurately reflect the feeling of the people.

All the young multimillionaire did in a short stay was to dance the fox trot with the wives of the miners, pinch the cheeks of their children, go down into a coal mine and wield the pick, discard his coat and eat miners' chuck at the miners' tables, give a few band stands to the mining camps and indulge in centuries' old platitudes at "home theatricals" in the mountain villages.

But that did the business. The newspapers in all parts of the state are now extolling the house of Rockefeller to the skies. Even some of the union miners, who hated the name with a malevolent hate, say they did not know the man before.

Rockefeller was in dead earnest in ascertaining what the conditions were in the camps and the mills where the

welfare of thousands of human beings depended upon his decisions or whims.

It was a big story for Colorado—the coming of young Rockefeller into the very heart of the "civil war" zone, into the places where the state militia in protecting his property had engaged in sanguinary battles with the workers.

The third party in interest—the innocent public—had got heartily sick of both the strikers and the Rockefeller folk. But the hatred was there.

The thing perhaps that did more to win Colorado's friendship than all his other activities was that dancing stunt at the Cameron mining camp. Everybody who read a daily newspaper in Colorado knew all about it next morning.

And when the populace awoke to learn that he not only suggested the dance himself, that he not only danced a single dance, but broke up his whole program in order to dance long into the night with the miners' wives and daughters, all classes opened their arms and welcomed John D., Jr., as Colorado's own.

The Denver Post printed on its front page an open letter to Mr. Rockefeller in part as follows:

"The people and the Post believe that your visit to Colorado marks an important epoch in the industrial history and welfare of the state. You have been a pleasant surprise to us, and you have tremendously excited our personal interest in you and respect for you.

"You have really opened the eyes of the entire Rocky mountain region. You have acted so well your part in so modest, unassuming and manly a way; you have so greatly pleased your friends and chagrined and disappointed your enemies that the people of northern Colorado now want to make your welcome into the state practically unanimous.

"And after all, Mr. Rockefeller, each man in this world is his 'brother's keeper,' and as one of the very big men of the country, as one of the richest men in the country, you have tremendous opportunities and tremendous obligations, which we all believe and hope you are going to fill in a great and Christian-like way.

"And so the people of Colorado salute you as one of the greatest possibilities and assets of the younger generation."

## OLD LANDMARK GONE

RIDGEWAY LUMBER YARD WAS EYESORE ON THIRD AND FOURTH.

## WAS BUILT 40 YEARS AGO

**W. R. Smiley Succeeded S. L. Ridgeway and Was Followed by Parchaer and McNeal.**

A landmark for forty years in Maryville and an eyesore for the last several years of that time, the old Ridgeway lumber yards will soon be no more. The sheds and office building are being rapidly razed this week and by Saturday little but the lots will be left.

The real estate was sold by Mr. and Mrs. W. R. Smiley tl Joseph Jackson, Jr. The price was $8,000 and the former owners have the right to the removal of all fences and buildings upon the lots in Third and Fourth streets between Buchanan and Fillmore streets

If West Third and Fourth streets have any personality, they are surely "perking up" this week as the ugly spot is being removed. The Christian church also will be helped greatly in appearance. And if sordid commercial affairs may be permitted to interject themselves into the atmosphere of esthetic pride at the improvement, insurance rates will be lowered on buildings in that neighborhood.

S. L. Ridgeway opened a lumberyard on that site forty years ago. For fifteen years he ran the business, selling it in 1890 to his son-in-law, W. R. Smiley. It was open most of the early years with only an office. The sheds have been standing about thirty years now.

Mr. Smiley sold the business in 1905 to Parcher and McNeal who conducted the business for four years after which it ceased to be an independent yard. The sheds were used for storage by both of the other yards until a year ago when the lease expired.

Since that time the property has been used for a feed lot which did not add in any way to its desirability as a neighborhood attraction.

**Many Buy Old Lumber.**

A goodly number of buyers were on hand to get the old material in the sheds. M. D. Vert bought the shed on the northeast side on Fourth street. He is hauling the timbers to his farm where he is building a cattle shed. A. S. Robey, who lives nearby, is laying in a large supply of shingles for kindling. The average price for the sheds was about $70.

J. B. Robinson bought one of the sheds and will use all of the material for kindling. F. A. Woodard bought another and is putting the material in a new house which he is building on East Fourth street across the street from the colored church.

L. R. Holt, Paul Saxton, and A. R. Hunt of Ravenwood, also are tearing down a shed each. Earl Gage will raze the office building. It is rumored that apartment houses may be built upon the lots.

The police and other authorities are also glad that the "torn spot" on the city's clothing is being patched, for the place has been a nuisance for a number of years. Brick bats have been thrown from the dark at police officers and others. Immoral and unlawful practices have been followed there. To stir up ancient humor, it was a paradise for those with a pair of dice.

Mr. Jackson says that he is not able at this time to announce what will be done with the property. It is rumored that apartment houses are to be bulit but no confirmation of this could be had. Why worry about that anyway? The big thing for Maryville residents right now is that what has been there is a thing of the past.

The lots on the corner of Third and Fillmore where a tennis court is were included in the sale. Altogether the land makes 12 business lots of 22 foot frontage.

## FUNDERBURG TO PEN

PLEADS GUILTY TO CARNAL KNOWLEDGE; WAS GIVEN 3 YEARS.

## DESPOILED A YOUNG GIRL

**Epperson Case Continued to Next Term —Hansen's Suit Upon Thornhill for Damages Today.**

John Funderburg pleaded guilty of carnal knowledge in circuit court yesterday and was sentenced to three years in the state penitentiary by Judge W. C. Ellison. The term was first placed at four years but pleas by Cook and Dawson, attorneys for the defendant, persuaded the judge to take off a year.

The statement to the court by Prosecuting Attorney W. G .Sawyers was that Funderberg is 33 years old, married but his wife is dead and one child is living with his grandfather at Amazonia. Funderberg was working near Barnard at the time of the Nodaway county fair.

Coming to the Fair, he fell in with a daughter of J. L. Stafford of near Burlington Junction. The girl was only 15 years old; she had been the "little mother" of the other children for several years since her mother died and had been away from home but little. Coming to the Fair with her brother, she became separated during the afternoon. While she was looking for her relatives Funderburg met her.

After treating her to several "cones and soda pop," he proposed that they take a buggy ride. She consented and they drove out the northwest road. They remained out in the buggy all night until 5 o'clock the next morning except for a short time when they came in to get something to eat about supper time.

The father of the girl lodged a complaint with the prosecuting attorney as soon as his daughter was found and as a result the "despoiler" will have three long years to think the matter over at Jefferson City.

The case of John F. Hansen vs. John Thornhill for $20,000 damages, was on trial in court today before a jury composed of H. H. McClurg, J. D. Elliott, W. A. Mozingo, Jake Moore, Martin Pederson, Ray Dowling, Eli McAtee, Fred Wray, A. C. Dredge, Charles Gray, W. V. Smith and Lester Ellis.

Hansen alleges that Thornhill made an assault on him March 31, 1915, by striking him, in the Knox garage. Hansen claims to have sustained a broken collar bone, his face, head and eyes injured, his chest and ribs were injured and that some of the injuries he received will be permanent.

Fred P. Robinson of this city, and B. R. Martin of St. Joseph, are representing Hansen, while Cook, Cummins & Dawson and Shinabargar, Blagg & Ellison are representing Thornhill.

There are many witnesses in the case and it will probably not go to the jury before tomorrow.

Everett A. Bagley, a young man, was sentenced to two years in the penitentiary by Judge Ellison when he pleaded guilty to the charge of forgery. He was paroled by the court under a $500 bond, which was given with his father, D. D. Bagley as surety. This was the young man's first offense and many prominent citizens pleaded for his parole as did the parties that received the bogus checks, which were paid by the boy's father.

In the case of State vs. Harry Epperson, on application of defendant for a continuance, it was continued until next term at defendant's cost.

The jury in the case of Cail Stark, charged with operating a car while intoxicated, brought in a verdict for the defendant.

Joseph Downing plead guilty to a charge of disturbing the peace and was fined $5 and costs.

### TO SHOW "THE MOONSTONE."

**Famous Drama to be Presented at the Empire Tomorrow Night.**

"The Moonstone," a five-reel feature picture, based on the Wilkie Coolins novel and play of the same name will be shown at the Empire theatre tomorrow night.

The film will star Eugene O'Brien and Elaine Hammerstein. The story is a new world romance interwoven with a counter story of a Hindoo mysticism and one of the most fascinating pictures produced.

**To Visit Home Folks.**

Mrs. Ike Thomas Pryor of Fort Stockton, Texas, will arrive in Maryville tonight for a visit with her parents, Judge and Mrs. W. C. Ellison.

## CALL US FOR THE SCORE

**Tomorrow's the Day and The Democrat-Forum Will Have World's Series Results by Innings.**

Rejoice, ye fans, tomorrow's the day. The "Phighting Phlying Phils" will meet the "Rantancerous" Red Sox in anither clinch for the honors of being considered world's champions (unless the "considerer happens to be a Fed fan).

The Democrat-Forum will be on the job. Call 42 on the Hanamo phone or 114 on the Farmers anytime after 2 o'clock and we'll be able to give you the score up to that time by innings. And the Democrat-Forum will have the final score every day, thanks to eastern time which will have the big games over before our time of going to press.

The Sweitzer Smoke Shop will receive the game by innings and bulletin in its north window. Although the games will not be received play by play, important features such as a home-run will be flashed."

It just makes one's athletic mouth water, doesn't it?

**SHIP NINE CARS OF APPLES.**

**Ford & Klaas of Parnell, Market Crop of 90-acre Orchard.**

Ford & Klaas, owners of a 90-acre apple orchard near Parnell have shipped out nine car load of Jonathan apples picked from the orchards this week. Three car loads are yet to be packed ready for shipment. The remaining cars are of mixed varieties. The apples are shipped to a Minneapolis commission firm.

**Home Talent on a Film.**

"The Man at the Throttle," is the name of a film which will be acted by local players before a moving picture camera and shown later at the Fern Theatre. C. D. Tinsley of the Superior Film Co., of Des Moines is here today arranging for the affair. Now if you have any histrionic ability or think you have, don't be bashful.

**To Live in Colorado.**

Mrs. F. P. Carter and daughter of Unionville, Mo., who have been spending a few days in Maryville visiting Mr. and Mrs. C. A. McCoppin, left this afternoon for Bolckow, to visit Mrs. Carter's father, H. N. Kennedy. The Carters are enroute to Colorado to make their home

S. G. Gillam of the Gillam-Jackson Loan and Trust Co., went to St. Louis last night where he will attend the session of the Farm Mortgage association today and tomorrow.

## WILSON BETROTHED

PRESIDENT TO MARRY MRS. GALT OF WASHINGTON IN DECEMBER

## SOCIETY MUCH SURPRISED

**No Hint Had Been Given And No Rumors eHard.—To Throw First World's Series Ball.**

Special to The Democrat-Forum.

Washington, Oct. 7.—Woodrow Wilsin the president of the United States, announced last night his engagement to Mrs. Norman R. Galt of Washington. The date of the wedding has not been fixed, but it probably will take place in December at the home of the bride-elect.

Washington society was never more surprised or bewildered. No hint had been given by any special attention to Mrs. Galt on the part of the President and no social rumors went about previous to the announcement.

President Wilson was swamped with congratulations today. He anniunced concerning the wedding that he desired a quiet marriage but would defer to Mrs. Galt's wishes in the matter.

A party including Mrs. Galt and the President will go tot New York today to be the guests of Colonel House. They will return to Philadelphia tomorrow where President Wilson will throw the first ball, opening the World's Series baseball games.

**Quiet Wedding at Bride's Home.**

It became known near noon today that the wedding would take place early in December. Mrs. Galt is very democratic in her tastes and the marriage will be a quiet affair at the bride's home with only the most intimate friends and relatives present.

Mrs. Galt, who is of course the most talked of person in Washington today was beseiged with congratulatory callers today. Hundreds of messages came too. She denied herself to everyone except intimate friends.

Her only public statement was: "I am very happy. Everything else necessary has been said at the White House."

Mrs. Galt is a direct descendent of Pocahantas and Captain John Smith She is a native Virginian and the widow of one of the largest business firms in this city, who died eight years ago. The jewelry firm still bears his name.

**Known Her Less Than a Year.**

President Wilson has known Mrs. Galt less than a year. She was brought inti the White House circle by Miss Margaret Wilson and Miss Helen Woodrow Bones, her cousin. Dr. Cary Grayson, the President's medical advisor and most intimate friend, and Miss Bones are credited with bringing about the match.

Mrs. Galt is 38 years old. She is regarded as being gifted with unusual beauty and charm. She has been constantly sought after in social Washington as a delightful companion. She was a frequent dinner guest at the White House and was the guest of Miss Wilson at the summer home of the President at Cornish, N. H. for several weeks last summer.

**Will Lighten Lonely Strain.**

Much pleasure was expressed in all quarters today because it has been known that the President was very lonely since the death of his former wife and the marriage of his two daughters. The strain of the Nation's affairs was not lightened by enough social diversions

Social life is expected to break out at once in a large number of receptions at which the future first lady of the land will be at the head of the receiving line. Mrs. Galt has appeared frequently in public with the President during last summer. She has played golf with him many times also.

Last week she occupied a seat next him in the reviewing stand of the G. A. R. parade. She was at dinner with President Wilson and Dr. Grayson and Miss Bones while Secretary Tumulty was making the brief announcement from the executive offices last night.

## EYES ON BALKANS

NEW CABINET FORMED IN GREECE FAVORING NEUTRALITY.

## MINISTERS LEAVE SOFIA

**Diplomatic Break With Bulgaria Will Mean War.—Kaiser Hopes to Reach Turkey.**

Special to the Democrat-Forum.

Athens, Oct. 7.—A coalition cabinet was announced by King Constantine here today with Alexander Zaimis, governor of the National Bank of Greece, as premier and foreign minister. All the members of the new cabinet are former ministers and M. Zaimis was a premier in a previous government. The change of government is considered a victory for Germany, but Greece will remain neutral, it is believed.

The Allies continue war preparations on Greek soil. Additional troops were landed today at Soloniki from Great Britain.

**Italy Breaks With Bulgaria.**

Special to The Democrat-Forum.

Rome, Oct. 7.—The severing of diplomatic relations with Bulgaria was announced by the Italian government today and a call was made for additional troops to join the Allies landing in Greece in their aid to Servia.

**Servia Rejects Bulgaria's Demands.**

Special to The Democrat-Forum.

London, Oct. 7.—Servia has rejected the demands of Bulgaria for the surrender of Macedonia and hostilities are expected between the two countries within twenty-four hours.

**All Allies Out of Sofia.**

Special to The Democrat-Forum.

Sofia, Oct. 7.—The British, French, Russian and Servian ambassadors have asked for their passports from the Bulgarian government, the ultimatum to Russia being unsatisfactory. The center of interest in the war is now on the Balkans.

It is believed that the German government hopes to form a connection from the Central Powers of Turkey. With Bulgaria fighting with them and the neutrality of Greece and Roumania assured, all that would remain to be done would be the crushing of Servia.

The Kaiser's dream of expansion toward Asia seems possible of fulfillment unless the Allies can land a greater force in the Balkans than seems probable now. The aid of Greece to Servia had been counted on but King Constantine of Greece has announced himself unalterably opposed to helping Servia although she is bound to do so by a treaty.

### MAIL CARRIER'S HOME BURNED.

**Fire Costs Ed. Kerr of Graham Several Thousand Dollars.**

The residence of Ed. Kerr of Graham, was burned last night about midnight. The entire contents of the house, including a new piano was also destroyed. The house was a six-room frame, modern, and almost new. Most of the furniture was also new and the loss is several thousand dollars. Mr. Kerr is a rural mail carrier.

**Old Nash House Re-Roofed.**

The house on the corner of Buchanan and Second streets, known as theNash property, is being re-roofed this week and other repairs are being made. The house is occupied by Mrs. Ella Shipps.

**Returns to Manhattan.**

Mrs. H. O. Porter of Manhattan, Kan., who had been visiting her parents, Mr. and Mrs. H. C. Smith, left this morning for her home.

We are authorized to announce Robert I. Young of Buchanan county, as a Democratic candidate for Congress from the Fourth district subject to the primary election to be held August 8, 1916.

Another influence of Billy Sunday in the land is that every revival niw has to be in a "tabernacle." Churches for protracted meetings seem to have gone out of style.

The Balkan nations have never amounted to much until now but they have at last come into their own. They have good prospects of becoming the center of activities in the European conflagration.

A committee went from St. Joseph to Omaha to tell Billy Sunday that St. Joseph is in "dire need of an awakening." The News-Press says "this is a strong indictment but unfortunately, it is substantially true." If St. Joe has at last found out that she needs an awakening, Billy Sunday's work is half done.

Under a decision recently rendered by the Supreme Court of the United States school authorities are given the right to regulate or prohibit the fraternities of the schools. In many schools the fraternity proposition has long been a serious source of vexation and a menace to the best interests of the schools but it has been difficult to regulate.

A WOMAN'S CLUB HOUSE.

The ladies of Maryville should have a club house. The fact that they have no place this side of the Normal building in which to properly take care of an important meeting of club ladies is in itself a convincing proof of their need. Dreams of such a building have been indulged for some years by some of the local club members but it has never gotten beyond a dream.

The growing activity of our club ladies in the direction of the public welfare and civic improvement generally brings the matter down to a practical consideration and gives new life and importance to it.

That such a building is desirable and would be a credit to Maryville we presume will be conceded without argument. But how may such an achievement be realized? Real estate and handsome buildings cost money. Savings from the usual entertainments and little enterprises would not yield a sufficient amount short of a life time.

If the ladies who are able to successfully conclude other undertakings get their heads together earnestly, there is little doubt that they and their friends may find the way. The Democrat-Forum does not now see how it can be brought about unless in one of two ways. If there is any one of means philanthropically inclined, a donation or endowment might be secured which would make such an undertaking feasible. There are a number of vacant lots and unprofitable properties which might well be turned to some such good purpose.

An entirely practical way, and perhaps the surest way, would be the formation of a joint stock company in which the ladies would take and hold all the stock. The sale of two hundred fifty dollar shares would realize ten thousand dollars. Public spirit and pride would prompt some one to supply the desirable lot at a low price and with this as a basis, a handsome and wholly adequate structure should result. The enterprise might produce in returns more than its up-keep and it might not but those who took the stock would not expect it to be a revenue producing investment. It would bring in ither ways most valuable returns.

NOTES OF THE SHEEP FLOCK

**Animals Fit Nicely Into Modern Farming—Early Maturity Is Important Point to Consider.**

As the country ages and the fertility of its fields becomes exhausted its appreciation of the sheep will increase.

Early maturity is an important quality to consider in selecting sheep.

Whether you are keeping sheep for pleasure or profit, your desires will be fully met if your flock is of superior quality.

A strong sheep does not absolutel, need to be a large one, in fact a majority of the strongest sheep are medium sized.

Sheep do not interfere with, but fit nicely into modern farming.

Sell the aged ewes to a butcher before the pastures dry up.

Sell the fat lambs as soon as they are fit, and give those left a better chance.

One or two gentle ewes should be left with the lambs to keep them gentle.

Sheep that are in any way diseased should never be retained for breeding stock, no matter how good a fleece or lamb they may produce.

Good lambs are money-makers.

**Improve!**

Just now the agricultural press and country publications too for that matter, are calling everybody's attention to the importance of pure and improved seeds. Poultry raisers, why not take the hint and pay special attention to improving your flock of fowls. This is equally as important as seed grain, if not more so, for there is a mighty difference between the dunghill kind kept by too many and the graded-up kind kept by too few

The KITCHEN CUPBOARD

BREAKFAST GEMS.

WHOLE Wheat Gems.—Materials: Three cupfuls whole wheat flour, two rounded teaspoonfuls baking powder, one and one-half cupfuls milk, two eggs, one tablespoonful sugar, two tablespoonfuls melted butter or other shortening.

How to Make.—Sift flour, baking powder, salt and sugar into bowl; add milk slowly; then add the well beaten egg and butter; mix well. Brush gem pans or muffin tins with lard; put a spoonful of mixture in each; bake in hot oven ten to twelve minutes.

Graham Gems.—Take about one pint of fairly thick sour milk, one rounding teaspoonful of saleratus, one teaspoonful of salt, two tablespoonfuls of molasses and graham flour to make a stiff batter. Have gem pans smoking hot and buttered when you drop in the batter. Bake about twenty minutes in a good hot oven.

Cornmeal Muffins.—Half a cupful cornmeal, one cupful flour, three tablespoonful baking powder, two tablespoonfuls sugar, one tablespoonful melted butter, one teaspoonful salt, three-fourths cupful milk, one egg. Mix all together and bake in hot oven.

Popovers.—Two eggs, one cupful of milk, one-half tablespoonful of butter cut into the flour, one-half teaspoonful of salt, one teaspoonful of baking powder and one cupful of flour. Mix the dry ingredients and add the milk and eggs. Bake half an hour in a moderate oven.

Griddlecakes.—One and one-half cupfuls of rich sour milk, one-half teaspoonful of salt, one teaspoonful of soda dissolved in one teaspoonful of cold water and one and one-half cupfuls of flour. Beat until smooth and fry on a hot, well greased griddle. This rule will make four cakes fully as large as a tea plate. Pile on a hot plate with plenty of butter and sugar.

Graham Griddlecakes.—One cupful of graham flour, one-half cupful of white flour, one tablespoonful of sugar, two teaspoonfuls of baking powder, two eggs, one and one-quarter cupfuls of milk, one teaspoonful of salt. Scald the milk and pour on to the graham flour. When cold add the remaining ingredients. Beat well and cook as regular griddle cakes.

ACIDS IN STOMACH SOUR THE FOOD AND CAUSE INDIGESTION.

**"Pape's Diapepsin" Fixes Sour, Gassy, Upset Stomachs in Five Minutes.**

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can surely get relief in five minutes.

Ask your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for billiusness or constipation.

This city will have many "Pape's Diapepsin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia, or any stomach misery.

Get some now, this minute, and rid yourself of stomach misery and indigestion in five minutes. 10-7-15.

## PLANTING THE WALNUT TREE

**Prepare Soil Carefully and Plant Nuts Three Feet Apart in Furrows—Carefully Conserve Moisture.**

Black walnut seeds are to be gathered in the fall, and the nuts carefully stratified. The nuts are not to be hulled even when the seed is planted, as the hull interferes in no way with the germination, and it may prevent the nut from drying out.

Gather the nuts, and alternate a layer of them with a layer of sand and leaves. Moisten the pile, and allow it to freeze. Let it remain moist and frozen all of the winter.

Plant the seed next spring as soon as the ground is in a workable condition. Black walnut trees will not make a good growth unless the ground is rich, and they ought not to be planted on any other kind. Prepare the land carefully and plant the nuts three feet apart in furrows ten feet apart. Plant the nuts four inches deep. As the black walnut is very sensitive to dry, parched conditions, it is necessary to give the trees good cultivation, and carefully conserve the moisture.

**Time to Market Sheep.**

The most advantageous time to sell a sheep is when it is a lamb. If the lamb weighs 80 pounds, is fat and has the quality, it will sell as a prime lamb the year around; if it weighs 84 to 85 pounds on the farm it will weigh about 80 pounds on the market.

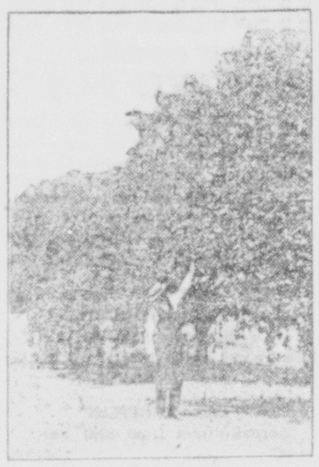
## RENOVATING AN OLD ORCHARD

**Ground Should Be Broken Between Trees and Sown to Some Quick-Growing Crop.**

Where there is a mat of grass and weeds in an old orchard the ground should be broken between the trees, taking care not to approach too closely to the trunks for fear of injuring the tangle of roots that usually run near the surface. For the first year after the orchard's renovation the strips that are plowed should be sown in cowpeas or some other quick-growing crop.

The aeration of the soil is the principal thing that is sought through this cultivation. It should be kept up for a couple of years, and where it



Properly Cared For Michigan Apple Orchard.

is possible to do so the ground should be broken sufficiently to seed a cover crop.

Of course, all dead and diseased wood should be taken out. It will interfere with spraying and picking, as well as offering a harboring place for all manner of insects and tree enemies. During the work of renovation all hanging bark, clinging loosely to the trees, should be pulled away and burned.

The weeds and trash that have gathered around the trunks of trees should be pulled away and burned with trash, dead limbs and other debris. All these things shelter hibernating orchard enemies, and by burning them the bugs and lice are destroyed.

## ONE OBJECT IN CULTIVATION

**It Best Conserves Moisture and Liberates Plant Food, Conditions Making Good Growth.**

The main object in the cultivation of a young orchard is to secure the fastest, thriftiest possible growth of the trees without unduly endangering them from disease attacks, or from winter killing occasioned by going into the winter in an immature condition. Continuous cultivation throughout the growing season best conserves moisture and liberates plant food. These conditions make for a splendid growth in young trees. A good supply of humus should be kept in the soil of a young orchard at all times, by dressing with stable manure or growing and working in green manure crops.

The best tool for working a young orchard is an extension reversible disk, of the ordinary or the cutaway type. This allows working up close to and under low-headed trees, without injury to their trunks. A spring tooth harrow may take the place of the disk, but cannot be gotten so close to the trees without injury to them.

Harrow as free as possible from projecting parts, and short singletrees should always be used in orchard culture.

## SPARE INSECT-EATING BIRDS

**Drastic Measures Must Be Taken to Save Quail, Grouse and Pheasants From Complete Annihilation.**

"The time has come when every sportsman should put away his gun for five years at least," said Col. G. O. Shields during a recent lecture upon "Birds and Animals of America."

Colonel Shields argued that drastic measures must be put into effect if quail, grouse, pheasants, and prairie chickens are to be saved from extinction. The annihilation of these birds, he said, would mean untold poverty resulting from the scarcity of crops which would be eaten by insects.

"Ninety per cent of the normal bird life of this country already has been destroyed and the other 10 per cent will go in the next five years unless strong measures are employed to stop the slaughter," he said. "Careful scientists tell us that if all the insect-eating birds were destroyed the whole continent would, within three years, become uninhabitable by reason of the myriads of insects that would spring up and devour every living thing."

# VOTE BENEFIT TO WOMAN AND STATE

## Prominent Washington Citizens Tell of Uplift.

## BETTER POLLING PLACES.

**National Democratic Committeeman John Pattison Asserts Women Improved Them In Tone and Character. Another Declares Voting Is Human Right—Has Helped Washington.**

Washington.—One of the best ways to find out how equal suffrage works is to listen to what the people in the equal suffrage states have to say about woman suffrage. The testimony of Mr. John Pattison, national Democratic committeeman of Washington, carries weight not only on account of Mr. Pattison's position, but because it is founded on facts and not on theories. When Mr. Pattison was interviewed he confessed frankly that at first he was opposed to woman suffrage on sentimental grounds. He had been taught to put woman on a pedestal, and he didn't just see how he was going to keep her on a pedestal if she persisted in going to the polls. He now acknowledges that to have been a false alarm and says that if a return to the old order of things were put to the voters today 90 per cent of the male voters would vote for woman suffrage. In a long and intimate connection with politics he has seen the convention halls and polls, "which formerly were too often the scene of drunkenness and violence, improve in tone and character by the presence of the women delegates and voters."

Women, he finds, have shown an active and helpful interest in civics and school matters. In municipal affairs they are keen, earnest workers, but national politics they are inclined to leave to the men.

When Mr Pattison was reminded that opponents of woman suffrage in the east held that equal suffrage had proved harmful to the western states, he negatived the idea emphatically. "It has been the best thing that has ever happened to us," said Mr. Pattison. "Our women of the west are the best mothers in the world, the best wives in the world, the sweetest sweethearts in the world."

"Why shouldn't they be?" was the way Mr. Charles Lund, former chairman of the state Republican committee, answered the question, "Should women vote?" "They are just as capable of voting as the average man; they have the same brains, the same interests, the same feelings and prejudices. Suffrage has been a good thing for Washington, and it has been a good thing for the women. There have been no radical changes, but there has been a perceptible improvement in the tone of politics."

Mr. Arthur Lee, president of the school board of Spokane, had this to say on woman suffrage: "If the women of Washington want the responsibility of the ballot the men of Washington want them to have it. Equal suffrage is still a comparatively recent innovation in Washington, and it is hardly fair to judge women's capacity for government in the few years that they have had an opportunity to voice their opinions. But it certainly has not worked any harm to the government and in instances has been of real benefit."

Mr. Charles S. Albert, attorney for the Great Northern railroad, in indorsing woman suffrage says: "Some people seem to have an idea that voting is a ceremony that people perform laboriously, with much expenditure of time and energy. All we do in Washington is to go first to the primaries, the woman with her shopping bag or sometimes with her market basket, and the man with his newspaper, and when we get to the primaries if we don't know anything about the candidates we inquire from some one who does know, the women asking questions just as the men do. Then he trots off to his office and she to her shopping or to her home, and we don't consume any more of our time with politics until election day. Then we go cast our votes. It really is very easy—not exactly an arduous and nerve racking performance to ruin a woman's character or break down her health. We believe in equal suffrage in Washington just as we believe in wives and homes and children."

**Empress Had Unique Rules.**

In the "Hermitage of Catharine" connected with the Winter Palace of the czars of Russia, hangs a tablet on which is graven ten guest rules of the great Empress Catharine of Russia. These might be hard for the guest of today to comply with but the most of them could be followed sometimes to the advantage of the hostess. Anyway they are interesting and indicative of the character of this great queen. They follow:

"1. Leave your rank outside, as well as your hat and especially your sword.

"2. Leave your right of precedence, your pride and any similar feeling outside the door.

"3. Be gay, but do not spoil a good thing; do not break or gnaw anything.

"4. Sit, stand, walk as you will without reference to anybody.

"5. Talk moderately and not very loud, so as not to make the ears and heads of others ache.

"6. Argue without anger and excitement.

"7. Neither sigh nor yawn, nor make anybody dull or heavy.

"8. In all innocent games, whatever one proposes, let all join.

"9. Eat whatever is sweet and savory, but drink with moderation, so that each may find his legs on leaving the room.

"10. Tell no tales out of school; whatever goes in at one ear must go out at the other before leaving the room."

Those entertained were Mr. and Mrs. Adcock, Mr. and Mrs. W. H. Tucker of Ravenwood, Clyde and Miss Golda Adcock of Maryville, Miss Edna Tucker, Miss Myrtle Tucker, Misses Emma and Beatrice Woods, Everett Tucker and William and Charley Woods.

**For Visiting Relatives.**

Mr. and Mrs. S. H. Townsend and Mrs. J. N. Manley were the hosts of a dinner party given at noon today at the Townsend home on East Fourth street complimentary to Mr. and Mrs. R. K. Townsend of Oklahoma City, Okla., and Mrs. Charles Campbell of Kansas City. The additional guests were Mr. and Mrs. C. D. Hooker, Mr. and Mrs. Hal T. Hooker and daughter, Halcyon, Mr. and Mrs. Ed Hamlin and daughter, Isabel, and Mrs. Ed Manley and son, Edwin.

**Delegates Chosen.**

At a called meeting of the Twentieth Century club held yesterday afternoon at the Elks club, the delegates were chosen to represent the club at the coming district federation meeting next week. Those selected were Mrs. M. G. Tate, president of the club, with Mrs. S. G. Gillam, alternate, Mrs. Henry Foster, with Miss Lucile Davis, alternate, and Mrs. Fred Harvey, with Mrs. R. L. McDougal, alternate. A number of new members were received. They were Miss Bertha Hook, Miss Mary Boggs, Miss De Luce, Mrs. Osburn, Mrs. F. P. Davis, Miss Ella Hazelrigg, Mrs. C. A. Bone, Mrs. L. G. Crossan, Mrs. William Moll Case, Mrs. Delmar Coffman and Mrs. C. Edwin Wells.

**Leaves for California.**

Mrs. J. C. Allender left this morning for Kansas City, where she meets a party of delegates from the various P. E. O. chapters of the state en route to the supreme convention which meets in Los Angeles, Cal., October 12 to 15. Mrs. Allender is vice president of the Maryville chapter and represents the Maryville, Hopkins and Shelbyville chapters at the convention. The delegates go in a special car from Kansas City and stop overs are to be made at places of interest between that city and the Pacific coast. Mrs. Allender will go to Spokane, Wash., to visit relatives. She was accompanied to Kansas City by her sister, Mrs. R. C. Campbell of Fort Scott, Kan., who had been her guest for the past two weeks.

**Plants Needed.**

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Dear Sirs: You want a cheap job of paint for a cheap house, don't you?

It's Devoe. It's the regular thing in Devoe; there's nothing, in all paint, so cheap as Devoe.

Oh, yes, you can paint with mud; but that isn't paint; you want it to look about right for a month or two.

Paint Devoe; can't do it for less; there's nothing so cheap; say nothing of wear, there's nothing so cheap as Devoe.

It goes so far; save gallons; no matter about the price, save gallons. A gallon of paint, put-on, costs $4 or $5; save gallons.

Devoe is your paint; save gallons; Devoe is your paint. Yours truly,

F. W. DEVOE & CO.,

New York, Chicago and Kansas City.

ration committee, would be the loan of potted plants to be used to beautify the First Christian church where the meetings are to be held. The committees have planned in every way to make the club sessions and the entertainment of their guests as pleasant as possible and an unsolicited co-operation in carrying out details will be gratefully received. An extra quantity of plants is needed to decorate the church and the supply at the greenhouses will be insufficient for such a large building. The meeting opens Tuesday morning and continues until Thursday night and the plants loaned will be properly cared for during the three days used. Mrs. D. J. Thomas is chairman of the decoration committee.

## JOHN D., JR., WINS ENEMIES' HEARTS

### Genial and Unassuming Manner Charms Colorado.

### NOW MINERS' FAVORITE.

Dances With Workers' Wives, Pinches Cheeks of Children, Wields Pick In Mine and Eats Laborers' Chuck on Visit to Colorado—Learns Living Conditions.

Pueblo, Colo.—Colorado public opinion is fickle. John D. Rockefeller, Jr., whose name was hated in every section of the state, is the most popular individual in the commonwealth today, if the Colorado newspapers accurately reflect the feeling of the people.

All the young multimillionaire did in a short stay was to dance the fox trot with the wives of the miners, pinch the cheeks of their children, go down into a coal mine and wield the pick, discard his coat and eat miners' chuck at the miners' tables, give a few band stands to the mining camps and indulge in centuries' old platitudes at "home theatricals" in the mountain villages.

But that did the business. The newspapers in all parts of the state are now extolling the house of Rockefeller to the skies. Even some of the union miners, who hated the name with a malevolent hate, say they did not know the man before.

Rockefeller was in dead earnest in ascertaining what the conditions were in the camps and the mills where the

welfare of thousands of human beings depended upon his decisions or whims.

It was a big story for Colorado—the coming of young Rockefeller into the very heart of the "civil war" zone, into the places where the state militia in protecting his property had engaged in sanguinary battles with the workers. The third party in interest—the innocent public—had got heartily sick of both the strikers and the Rockefeller folk. But the hatred was there.

The thing perhaps that did more to win Colorado's friendship than all his other activities was that dancing stunt at the Cameron mining camp. Everybody who read a daily newspaper in Colorado knew all about it next morning.

And when the populace awoke to learn that he not only suggested the dance himself, that he not only danced a single dance, but broke up his whole program in order to dance long into the night with the miners' wives and daughters, all classes opened their arms and welcomed John D., Jr., as Colorado's own.

The Denver Post printed on its front page an open letter to Mr. Rockefeller in part as follows:

"The people and the Post believe that your visit to Colorado marks an important epoch in the industrial history and welfare of the state. You have been a pleasant surprise to us, and you have tremendously excited our personal interest in you and respect for you.

"You have really opened the eyes of the entire Rocky mountain region. You have acted so well your part in so modest, unassuming and manly a way; you have so greatly pleased your friends and chagrined and disappointed your enemies that the people of northern Colorado now want to make your welcome into the state practically unanimous.

"And after all, Mr. Rockefeller, each man in this world is his 'brother's keeper,' and as one of the very big men of the country, as one of the richest men in the country, you have tremendous opportunities and tremendous obligations, which we all believe and hope you are going to fill in a great and Christian-like way.

"And so the people of Colorado salute you as one of the greatest possibilities and assets of the younger generation."
